9:00am—5:00pm

Aerial Function Centre, UTS, Glebe

Cost: **Members: \$550** (includes GST) **Non Members \$1100** (includes GST)

Course Overview

Introductory workshop

This interactive workshop is aimed at clinicians interested working with, or already providing their services to, people with Parkinson's Disease. It aims to enable the attendees to develop and improve all relevant skills and knowledge for an OT to function within a multidisciplinary team.

This workshop will allow participants to :

- learn how to enhance the use of your OT skills
- see how your new learnt skills can have immediate impact on your clients and family
- learn how you can become part of a trans-disciplinary team
- understand the tip of iceberg concept of Parkinson's disease
- discover the marvellous Basal Ganglia and its diverse automatic functions
- see how assessment tools can help you design and frame management on an individual basis

The program will consist of lecture presentations, facilitated workshop activities, group discussion and video case examples.

About the Presenter: - Margarita Makoutonina, B. Health Sci. Occ.Th., B. Edu (Honours), Certificate IV in Workplace Assessment and Training, Senior Clinician, Occupational Therapist

Margarita Makoutonina is a director of ParkiLife Pty Ltd. She has a passion in research, education, training and mentoring for health professionals. She is also interested in holistic/interdisciplinary rehabilitative approaches for continuous care for PwP and their carers.

Margarita Makoutonina has been the Senior Clinician, Occupational Therapist in the Victorian Comprehensive Parkinson Program (VCP), National Centre of Excellence in Melbourne, for over 12 years. She has delivered research papers at many national and international Congresses and conducted lectures, workshops and training in Parkinsons. Margarita has also publishing an article and co-authored 2 books in the field of Parkinson's.

Margarita is a member of the Leadership Health Professionals Group within Movement Disorders Society. She has been chosen by WPC to be an Australian Ambassador for the World Parkinson's Congress 2013.

Ms Makoutonina is an expert in assisting and establishing specialized multidisciplinary movement disorders programs nationally and internationally. She has passion in education, training and mentoring for health professionals. She also presents research papers on the holistic/interdisciplinary rehabilitative approach for People with PD locally, interstate and internationally.
